

SKIN MOISTURIZATION

Proper hydration is essential for skin care.

Rejuvi "v" Nourishing Cream

A wonderfully rich and luxurious moisturizer for dry skin. Rejuvi "v" is the perfect solution for dry skin that needs extra care. Drenches the skin in lubricating moisture and emollients without the heavy oily feeling of ordinary moisturizers.

Application: Apply to cleansed skin day or night. May be used year-round by all skin types when extra moisture is needed.

Rejuvi "y" Light Moisturizer

The cream designed for individuals who prefer a light moisturizer. Non-greasy and non-comedogenic, this cream is perfect for teenagers and young adults who want to keep their skin soft, moist and fresh. This cream is also suitable for the skin which needs a limited moisturization.

May be used day and night.

Application: Apply sparingly to cleansed skin in the morning and evening.

Rejuvi "b" Skin Moisturizer

Advanced biological technology and Oriental beauty secrets come together to provide this superior day cream. Rejuvi "b" contains aloe vera, precious pearl powder, suma extract and avocado oil for skin healing and nourishment. A precious yeast extract and super anti-oxidant - alpha-lipoic acid are incorporated into Rejuvi "b" to strengthen the skin's immunity and help protect against environmental damage. Available in three formulations: Normal, Oily and Sensitive.

Application: Apply to cleansed skin daily for best results.

Rejuvi "b" Moisturizing Lotion

Stemming from "b" Skin Moisturizer, this soft and light moisturizing lotion is totally non-comedogenic. It is designed for very light hydration to the skin. Compatible for both oily and normal skin in all kinds of weather, especially in humid, tropical climate. This light formula will provide skin protection with minimal residues on the skin.

Application: Apply to cleansed skin day or night.

Rejuvi "n" Night Cream

This soft snow-white cream melts instantly into the skin. Rejuvi "n" contains precious natural oils along with vitamin C and E to provide excellent nourishment and moisturization. The combination of vitamins work together to effectively fight oxygen free radicals, a major skin aging factor. In addition GLA (gamma-linolenic acid) in evening primrose oil and ginseng extract work to promote natural skin recovery. Available in two formulations: Normal and Dry.

Application: Apply nightly to cleansed skin using gentle upward strokes.

AGING FIGHTERS

Rejuvi's six advanced products essential for younger looking skin.

Rejuvi "a" Night Gel

An innovative vitamin A complex that works synergistically to rejuvenate your skin's appearance.

Research has revealed this vitamin A complex gently stimulates the regeneration of collagen and elastin to help safely diminish visible lines. Ginseng extract, natural pearl powder, aloe vera and biotin are also incorporated to help the skin's natural recovery and reduce the signs of aging. Rejuvi "a" with regular use provides visible results in 4 - 6 weeks.

Application: Apply on clean skin at nighttime.

Rejuvi "a" Renewal Complex

A powerful wrinkle fighter! Features concentrated antioxidant - alpha-lipoic acid, DMAE (diethylaminoethanol) and a proprietary combination of glucosamine HCl, algae and yeast extracts. This exciting formula penetrates skin easily, increases energy production in cells, retards aging process, and increases production of collagen and hyaluronic acid resulting in line reduction, smoother and lustrous skin. Available in two formulations: Normal and Sensitive.

Application: Apply on clean skin in the morning. It can be pre-mixed with "x"-cell Vitamin C Complex or "Q" Flavonoid Complex and then apply to the skin.

Rejuvi "g" AHA Cream

Rejuvi's state of the art cream provides multiple skin benefits for all skin types. Containing alpha-hydroxy acid (AHA) and AHA derivatives it gently exfoliates dead skin cells and refines skin tissue. Significant concentrations of Vitamin E and C are incorporated to minimize oxygen free radicals, a major factor in premature aging. In just a few days, you will see a visible difference in your skin: fine lines reduced, wrinkles less

noticeable and skin texture is smoothed. Additional benefits include the diminished appearance of age spots along with a much clearer complexion. The general overall look of the skin is vastly improved. Rejuvi "g" AHA cream is available for three skin types: Normal/Dry, Oily and Sensitive.

Application: Apply to clean skin day or night avoiding the delicate eye area.

Rejuvi "g" AHA Serum

This is a thin gel with excellent skin penetration. It contains a complex of alpha-hydroxyl acids and their derivatives. Water soluble sunflower oil, liposomes and anti-irritant (dipotassium glycyrrhizinate) are incorporated for minimizing any possible tingling or discomfort. It is very

compatible to oily skin or acne skin in a tropical climate in which people want AHA products with minimal residue on the skin.

Application: Apply a few drops to the cleansed skin and massage to even distribution. Avoid contact to eyes.

Rejuvi "x"-cell Vitamin C Complex

A unique complex containing high concentrations of Vitamin C and its derivatives in a stable and highly penetrating solution. Research and study show that Vitamin C is critical for maintaining skin health. Rejuvi "x"-cell provides the best anti-oxidation against oxygen free radicals, important in the prevention of premature aging. Without the discomfort usually associated with other Vitamin C serums, Rejuvi "x"-cell can be used with confidence on the entire face, throat, and delicate eye area. Mulberry extract is incorporated to enhance cell renewal to smooth skin and to restore skin firmness and elasticity.

Application: In the morning, apply 3 - 5 drops to cleansed face massaging briefly for even distribution. Follow with appropriate daytime care products.

Rejuvi "Q" Flavonoid Complex

This product combines vitamin P (bioflavonoid), vitamin K, and grape seed extract to form a unique complex, which is a great approach for the prevention and reversal of broken capillaries, spider veins and excessive redness.

In addition, It significantly increases the potency of vitamin C via synergism. This product could reduce skin sensitivity resulting from aggressive treatments such as chemical peels, laser peels and microdermabrasion.

Application: Use daily. Apply on cleansed skin and massage lightly. It may be pre-mixed with "x"-cell Vitamin C Complex and then apply to the skin.

EYE CARE

Vulnerable to fine lines, sagging and dark circles, the skin around the eyes is the most fragile and delicate skin on the body. Proper care is important.

Rejuvi "i" Eye Repair Gel

A unique rejuvenating eye treatment in a clear gel form to reduce puffiness and lessen the appearance of dark circles around the eyes. Rejuvi "i" utilizes beta-glucan (yeast extract), alpha-lipoic acid and DMAE to strengthen the skin's natural immunity and biotin at high concentrations to enhance the skin's elasticity. Rejuvi "i" also incorporates

a unique aqueous polymer and water soluble jojoba oil to provide superior moisturization without stickiness. Regular use of the gel twice a day will bring noticeable improvement to the delicate skin around the eye area.

Application: Use day and night for best results. Pat gently around the eye area. May be applied throughout the day as needed.

Rejuvi "i" Eye Repair Cream

This soft and lovely cream with an extra boost of moisturizing power is specifically designed for dry eye zone. Alpha-lipoic acid and the unique complex (glycosamine HCl, algae and yeast extract) are incorporated for scavenging free radicals and aging repair process. A noticeable improvement to the eye zone could be observed in a couple of weeks.

Application: Use day and night, pat gently around the eye area. May be applied throughout the day as needed.

Rejuvi Eye Makeup Remover

A light, oil-free cleanser specifically formulated to remove both waterproof and regular eye makeup. This gentle formulation effectively cleanses the delicate eye area with no oily residue or irritation to eyes.

Application: For regular mascara or eye makeup, use a cotton pad with the sufficient solution and gently wipe away. For removal of waterproof mascara, put a cotton pad with more solution onto top of eyelash area and wait 30 to 60 seconds then wipe away.

Rejuvi "e" Eyebrow Revitalizer

Contains a mixture of vitamins and herbal extracts that naturally cleanses the eyebrow root while nourishing and stimulating the follicles. It offers a natural, economical and convenient way to beautify eyebrows. Much safer than permanent make-up. With daily use a significant improvement in the look and feel of your eyebrows can be obtained within two weeks.

Application: Apply sparingly to eyebrows with the applicator brush nightly for best results. Stop use for a few days if discomfort develops. Then resume application every other day. Avoid contact to the eyes.

Rejuvi "e" Eyelash Revitalizer

Similar to Eyebrow Revitalizer, this very gentle formulation is designed to encourage the growth of your lashes. With regular use your eyelashes will be thick and lustrous. It helps give you the lashes you've dreamed about.

Application: Using the applicator brush, apply a tiny amount of Rejuvi "e" Eyelash Revitalizer to the very tips of the lashes and then close your eyes and gently massage eyelids for several seconds. Use daily, preferably in the evening. Avoid contact to the eyes. Rinse off with plenty of water if eye contact occurs.

SPECIAL CARE

Clearing Blemished and Acne Skin

Urea peroxide is utilized to clean acne sepsis. Complex of alpha-hydroxyl acids and their derivatives is used to effectively remove the surface debris and micro-comedones plugging up skin pores. An over abundance of hormones can produce an excess of sebum, which can clog pores causing acne and pimples. Salicylic acid and a unique combination of organic acids, zinc and vitamins are used to effectively inhibit excessive skin hormones. Rejuvi's multiple action approach cleanses blemish prone skin quickly and is far superior to other acne products on the market.

Rejuvi "p" Normalizing Cream

A moderate-acting cream designed for regular acne skin.

Application: Apply daily on target problem areas preferably in the evening. If irritation occurs, stop use for a day or two and resume treatment every other night.

Rejuvi "p" Normalizing Cream (for open acne skin)

A gentle-acting cream designed for inflamed blemish skin (severe breakouts). This version can quickly soothe and calm down affected skin.

Application: Apply daily on targeted area or entire face until the acne prone skin is under control and then switch to the regular version of "p" Normalizing Cream.

Rejuvi "p" Solution

It is to enhance Rejuvi "p" Cream in a penetrating aqueous formula.

Application: Apply only on acne and pimpled areas every other day. Use a cotton swab to treat problem areas. Allow solution to stay on skin for two to twenty minutes depending upon the skin's reaction (remove when skin feels an appreciable tingling). Rinse well with water. Follow with Rejuvi "b" Skin Healing Gel to soothe any skin discomfort. Apply appropriate Rejuvi "p" Cream in the evening.

Rejuvi "p" Skin Conditioner

A unique formulation designed to inhibit the excessive male hormone (androgen) on the skin for regulating the over-production of oil or sebum. Rejuvi "p" Skin Conditioner can be used to eradicate acne blemishes or convert oily skin to normal skin.

Application: Use every other night or twice a week. Apply to targeted area or entire face area and leave on at least 6 hours. Don't apply any other product on top of Rejuvi "p" Skin Conditioner.

ADDITIONAL SPECIAL CARE

Rejuvi "t" Bio-Firming Gel

Containing wheat protein, lupine protein and DMAE (dimethylaminoethanol), this amazing product promotes an instant skin firming and tightening effect for better makeup. Different from the similar products on the market, Rejuvi "t" Bio-firming Gel also provides a long-term skin firming and tightening benefits. With frequent use, "t" Bio-firming Gel also helps sagging neck, jawline and particular lips.

Application: Apply to cleansed skin, let dry thoroughly and then apply make-up. Use as a quick boost whenever you want to look your best or keep your skin firmer and fuller with regular use.

Rejuvi "c" Skin Care Formula

Low concentrations of AHA make Rejuvi "c" a safe and effective treatment for those who want the benefits of AHA at home. Rejuvi "c" provides a gentle way to remove skin debris and promote skin metabolism. Skin is noticeably healthier and more refined after just one or two applications. It gives your complexion a dramatic boost. Frequent use results in multiple

skin benefits such as: reducing pore size, lightening age spots, soothing acne soreness, and promoting overall skin smoothness.

Application: Apply to clean skin with brush or cotton swab. Leave on for 5 to 30 minutes depending upon your skin reaction (remove when skin feels an appreciable tingle). Rinse with cool water and apply Rejuvi "b" Skin Healing Gel then followed with other desired Rejuvi products. Note: Rejuvi "c" can enhance the effectiveness of Rejuvi "n" Whitening Cream if used immediately before the application of Rejuvi "n".

Rejuvi "m" Massage Cream

This lovely mineral oil free cream allows a relaxing facial massage at home. It provides a long lasting lubrication with a pleasant scent.

Application: Apply sufficient amount on cheeks, massage with circular motion. After massage, remove with facial tissue and followed with an appropriate Rejuvi cleanser.

Rejuvi "m" Massage Oil

Combining precious jojoba and avocado oils, Rejuvi "m" offers excellent lubrication for a serious facial massage. Incorporating aloe vera oil and vitamins, Rejuvi "m" helps the skin's natural healing process and provides nourishment. A significant concentration of GLA (gamma-linolenic acid) is the prominent feature offering essential nutrition and body metabolism. GLA is extensively reported to help relieve many common premenstrual syndrome symptoms (e.g., bloating, breast tenderness, even irritability). Rejuvi "m" Massage Oil is the first massage oil that incorporates this valuable ingredient for topical delivery.

Application: Use as regular massage oil for face or body. May be used as extra nourishment for very dry skin; follow with regular moisturizers.

Rejuvi "m" Massage Cream with Scrubbing and Whitening

This is a special cream is designed to remove dead skin cells and provide a cosmetic whitening effect during massaging. The scrubbing is achieved by fine jojoba ester beads which are natural and safe for skin. The cosmetic whitening effect is achieved by fine titanium dioxide.

Application: Apply sufficient amount on cheeks, massage gently with circular motion. After massage, remove with facial tissue and followed with an appropriate Rejuvi cleanser.

Rejuvi Mini Collection - trial kit/travel kit

This kit contains nine of basic skincare products in convenient size packed in a cosmetic bag. For travel or trial purpose. Rejuvi Mini Collection includes "o" Cleansing Milk, "k" Facial Cleanser, "r" Skin Refreshener, "b" Day Cream, "n" Night Cream, "g" AHA Cream, "h" Skin Healing Gel, "i" Eye Repair Gel and "s" Facial Sun Block (SPF20). Experience for yourself the proven results of Rejuvi skincare!

Application: Follow up with the instructions for individual products

REJUVI FACIAL MASKS

Facial Mask is a very beneficial salon treatment due to excellent skin penetration. Rejuvi offers five different masks suitable for various skin types as home treatments.

Designed to bring the spa into your home and deliver salon performance whenever you want. All Rejuvi clay masks are made in the cold/wet process to assure maximum biological activity. This exclusive Rejuvi process assures you of optimum performance of the herbal and biological ingredients. Rejuvi Clay facial masks provide the following skin benefits:

- Increases and improves the metabolic process
- Provides normalizing influence on skin, blood and immune system.
- Removes toxins, bacteria and fungi from skin.
- Provides anti-inflammatory and desensitizing actions.
- Accelerates skin exfoliation
- Increases cell oxygenation
- Infuses moisture and increases elasticity to epidermal horny layer.
- Promotes skin freshness, firmness and skin uniformity.

SELECT ONE OR MORE REJUVI MASKS BEST SUITED TO YOUR SKIN TYPE

Purifying Mask

(Clearing and Refining)

Deep cleansing is assured with this gentle yet effective mask. Rich in papain enzyme for skin exfoliation and sulfur for skin softening, this mask is especially effective for rough blotchy skin. Those with oily skin will find this mask especially beneficial. After using this mask, the skin will become smooth, clear and lighter to some degree.

Recommended use: twice per week.

Herbal Mask

(Refining and Revitalizing)

An all natural mask bringing soothing care to all skin types. Aloe vera, ginseng, summa, witch hazel and chamomile extract are the key ingredients providing superior skin healing, desensitizing and refining. Additional benefits include an immediate radiance and glow to the complexion.

Recommended use: twice per week.

Bio Mask

(Refining and Nourishing)

Especially effective skin nourishment is provided through the abundance of highly refined vegetable extracts, proteins and liposomes. After treatment the skin is left feeling soft and silky with a noticeable improvement in skin firmness. May be used for all skin types.

Recommended use: twice per week.

Method of Application - All masks:

Apply to cleansed skin. Using brush or fingertips apply evenly to facial and neck area. Avoid delicate eye area. Allow to remain on skin for 15-20 minutes, relaxing if possible (the retention time of Exfoliating Mask must be controlled exceptionally - see the above section). To remove, rinse well with tepid water. Follow with a cotton pad dampened with Rejuvi "Y" Refreshener, sweeping over entire face and throat, making sure to remove any last traces of the mask. Follow with your regular day or night time Rejuvi moisturizer.

Hydrating Mask

(Intense Moisturization)

A non-clay mask designed especially for very dry and sensitive skin, this mask helps ease the tightness and flaking usually associated with these skin types. Using high concentration of sorbitol (from ripe fruit, seaweed and algae), this mask drenches the skin in moisture and vitamins. Through the incorporation of lecithin, Rejuvi scientists have discovered a way for the body to use its own supply of fat to combat dryness. Additional ingredients of summa extract - "Brazilian ginseng" and allantoin are also beneficial to skin hydration. Regular use twice a week will provide significant hydration for dry and sensitive skin. May be used by all skin types when intense moisturization is desired.

Exfoliating Mask

(Exfoliating and Renewing)

A non-clay mask contains concentrated Papaya Extract, AHA and BHA providing gentle skin exfoliation to remove surface debris and promote skin renewal. Especially recommended for those with oily skin, acne skin and aging skin. The skin will become smoother and brighter just after a few treatments. There might be a slight stinging sensation in the first few minutes after application. Discontinue the use if a significant discomfort or irritation develops in first few minutes. The retention time is usually between 5-20 minutes depending upon the skin tolerance. Rejuvi "h" Skin Healing Gel is recommended to be applied right after the removal of this mask.

SUN PROTECTION

A Key Step to Minimize Photo Aging

Rejuvi "s" Sunscreen

This non-PABA sunscreen is non-comedogenic and irritation-free. Rejuvi "s" Sunscreen provides excellent sun protection. Rejuvi "s" is also rich in vitamin E acetate to help defend against oxygen free radicals. It is not waterproof and not for swimming purpose. Available in two formulations: SPF15 and 20.

Application: Apply liberally to clean skin. For best results, apply 30 minutes before exposure to sun. It may be applied for facial area for short term (a few days). Use Rejuvi "f" Facial Sun Block for regular facial sun protection.

Rejuvi "s" Facial Sun Block (SPF 20)

Rejuvi "s" Facial Sun Block is a unique sun protection product utilizing micronized zinc oxide and titanium dioxide, representing the latest sun protection technology. The combination of both physical sunscreens allows Rejuvi "s" Facial Sun Block to provide excellent protection in both short wavelength UV (UVB) and long wavelength UV (UVA). Different from all organic sunscreens with some skin penetration, the physical sunscreens do not have any side effect on the skin and is very safe to use for long term. In addition, this sun block has rich moisturizers to nourish and safely protect delicate facial skin. Available in a convenient tube for portability. Use anytime-extra protection is required for sun sensitive areas like the nose, ears, back of neck and bald spots.

Application: Apply liberally to clean skin, paying special attention to sun sensitive areas. Re-apply after swimming or heavy perspiration.

Rejuvi Dual Sun Protection (up to SPF40!)

In general SPF20 is good enough for most of sun protection needs. A higher SPF value might be needed under special condition. Due to technical limit, the highest SPF value on the emarket is about SPF35. Rejuvi has designed a unique dual sun protection concept enabling to achieve SPF40 easily. It is quite simple: apply "x"-cell Vitamin C Complex on the cleansed skin twice, then apply "s" Facial Sun block (SPF20). Vitamin C functions as an internal sunscreen under the skin and could reduce sun damage up to 50%. As a result, the combination of "x"-cell Vitamin C Complex and "s" Facial Sun Block (SPF20) could achieve the overall sun protection up to SPF40!
